Scrubber 75
Heavy-duty Cleaning with Best-in-class Sensing

Maximize your cleaning productivity and coverage

With its strong brush pressure and a cleaning efficiency up to 3,000 m²/h, Scrubber 75 is an ideal choice for large-area, heavy-duty cleaning. Simultaneous scrubbing and sweeping is achievable with roller brushes, and makes Scrubber 75 a competent cleaner for industrial sites where trash and debris are common on the floor. Its 270° rotational scrub deck enables cleaning tight corners and ensures maximal cleaning coverage.

- Simultaneous scrubbing and sweeping
- 270° rotational scrub deck
- Up to 3,000 m²/h cleaning efficiency

An ultimate solution for car park cleaning

Scrubber 75 P is customized for car park cleaning. It adopts automotive-level sensor and lighting configurations to work smartly and safely in the dynamic environment of parking lots where a large volume of vehicles going in and out. The robot also has an oil cleaning mode to deal with the stubborn oil stains that are common on the floors of the parking lots.

- Oil stain cleaning
- Millimeter-wave radars
- Advanced lighting configuration

Simplify your work process

Scrubber 75 will make cleaning work much easier with little need for human interference. It perceives environmental changes, updates the map and reroutes itself in real time — you don't need to stand by to save it from getting lost or stuck. With the optional workstation, the robot can perform power charging and water refill by itself. It also offers remote access via Gausium mobile app that enables you to monitor and control your cleaning task from anywhere.

- Smart obstacle avoidance and rerouting
- Remote-control mobile app
- One-stop service workstation

* Scrubber 75 series consists of two configurations - 75 S and 75 P

Key Features:

Superb Productivity
- Integrating scrubbing, sweeping, dust mopping and degreasing
- Up to 3,000 m²/h cleaning efficiency

Oil Stain Cleaning
Able to mark oil stains in the map and perform thorough oil cleaning

270° Rotational Scrub Deck
Accessing and cleaning 90° corners, putting a stop to incomplete cleaning once and for all

5-Stage Filtration System
Reducing around 80% freshwater consumption

Ergonomic Manual Mode
Equipped with stand-on pedal and steering wheel for users to effortlessly carry the machine around

Minimal Human Intervention
Optional workstation for self-docking charging, water refill and discharge

Advanced lighting system (75 P)
Adopting flashing light, blue projection light and supplement light, distinctively communicating the machine position through vehicle-identifiable signals

Best-in-class Sensing
Market-leading sensor system consisting of 3D LiDAR, 2D Laser and 3D Cameras. 75 P is equipped with Millimeterwave radars for faster and more accurate perception of the vehicle movements

Superb performance in a broad range of applications:

Shopping centers | Supermarkets | Parking lots | Transportation Hubs
Manufacturing plants | Logistics warehouse | Plazas | etc.
